

Your ADVIA 2400 Methods Directory has not been loaded onto your hard drive.

Please insert the Methods Directory CD into your CD-ROM drive, locate **Methods.exe** and double-click this file.

Verify that the target folder is C:\Help\Methods, then click **Unzip**.

Once you have downloaded these files, remove the Methods Directory from your CD-ROM drive and store it in a safe location.

**IMPORTANT**

If you reload the ADVIA 2400 Operator's Guide, you must reload the Methods Directory **after** the Operator's Guide is installed on your hard drive.
